Committee Interviewing Manufacturers on the Closing Question

ON OPENING LEAGUE DAY

Effort to Get Out the Biggest Crowd of the Season—Tigers at Mowqua Today

Yesterday Misses. A. J. Gallagher and L. W. Farnham were interviewing manufacturers and others on the question of closing their places of business during the baseball season. The Three League baseball team, in the hope of making that the opening day of the season in the attendance. The Rock Island team will open the season here Oct. 1.

General Foreman C. S. Needham was interviewed and asked if he would close his Wabash shops for a half holiday in order that the employees might attend the game. Mr. Needham said that it was most too far in advance to make any positive promises. He was inclined to the belief that it would be possible to close the freight shops for a half holiday, but expressed the opinion that in all probability there would be too much work in the eastern shops to close that department. He assured the committee, however, that he would do what was possible for the cause.

At the C. B. & Q. shops, W. E. Beving, vice president of the Reiters, informed the committee individually that he would be at the game. As for closing the shops, he was willing that such action should be taken if the employer wanted it. If they wanted to go to the game they would, of course, vote for a half holiday, if they didn't want to go they would vote against it. The decision will rest entirely with the men.

At the Faris manufacturing company the answer was made that the plant would not be closed, but that every employee who wanted to go to the game should have perfect liberty to do so. That, of course, was satisfactory to the committee.

At the Mueller manufacturing company office the statement was made that the proposition would be considered. That is one of the busier places in the city and at present the company is so far behind in their orders that the shops are operated night as well as day.

The committee still has many places to visit and intend that there shall be no one sighted. All manufacturers will be requested to close and give not only the local team but the Three League a good send off. The effort will be to make the attendance the largest ever known at a baseball game in Decatur and prospects for that are bright indeed. The committee will be asked to close their stores in time to give the clerks an opportunity to see the game.

**MOWEAQUA TO DAY.**

Pfeffer and his men go to Moweaqua today for a game with the amateurs of that city. All three of the local pitches will be tried. Moweaqua with its plethora of good ball players, ought to be able to make it interesting for the leaguers.

**TITLE DUELLS.**

Manager Pfeffer has received the baton order of the Dells, who are due for a Sunday game:

Schmitt, shortstop;  
Baudoin, left field;  
Davidson, second base;  
Lewis, center field;  
Roll, right field;  
Howerton, third base;

**BY POPULAR SUBSCRIPTION**

The Money for the Wabash Hospital Site Will be Raised

The members of the committee ap-

pointed to decide ways and means for raising the money in part at the Wabash hospital site held a meeting yesterday at the office of D. S. Shellabarger and decided that the only way to raise the money will be popular subscription. There will be a meeting today and then the plans outlined will be made public. When this committee was appointed it was authorized to name subcommittees as might be deemed necessary.

**Beautify the Street**

On Corso Gordo street city workmen are cutting the parkway between the curb stone and the sidewalks. In front of the post office and the Wabash company shop work is being done along private expense. Manager Maxon of that company said that the parkway will be sodded as soon as it is cut to proper grade. Already that street is making a decided improvement in appearance and in spite of the fact that it is being cut in the way of smooth steel, clean sidewalks and grass plots it will soon outshine the majority of the residence streets in the city. Now one can scarcely recognize it as the same street they viewed less than a year ago.

**Saved the House**

What might have been a big fire was prevented on Monday night by the arrival and the speedy work of Earl Scammon and Fred Parker at the residence of John G. Floyd, 337 North Church street. The boys were on their way home from a dinner and passing in front of the house noticed the fire in a box containing the house. In a few minutes the house would have been in flames. A garden hose was used and Mr. Floyd was awakened to see the last of the fire put out.

**He Kept His Leg**

Twelve years ago J. W. Sullivan of Hartford, Conn., scratched his leg with a rusty wire, inflammation and blood poisoning set in. Few days later he suffered intensely. Then the best doctors urged amputation, "but," he writes, "I used one bottle of Electric Bitters, and 12 boxes of Bucklin's Arthritis Salve and my leg was sound and well as ever."

For eruptions, eczema, tetter, salt rheum, sores and all blood disorders Electric Bitters has no rival on earth.

Try them. J. E. King, N. L. Krone and Bell the druggist will guarantee satisfaction or refund money. Only 30 cents.

# STARR'S SANITY

The Heaviest Manufacturers of Corn Goods Have Formed on Big Company

ON OPENING LEAGUE DAY

The Capitalization is for \$3,750,000—Combined Mills Have Daily Capacity of 70,000 Bushels of Corn

At Chicago on Friday the details of the organization of the American Hominy company were completed. Decatur men are largely interested in the new organization and as organizations some of the Decatur companies will disappear. The American Hominy company will own the plants having a capacity for making more than 75 per cent of the corn goods made in this country. In speaking of corn goods no reference is made to ordinary corn meal, such as is made by the small mills in all parts of the country, but corn grits, such as are used by breweries, hennings and flake goods, which go on the market as prepared foods.

The American Hominy company is organized under the laws of the state of New Jersey with a capital stock of \$3,750,000. All of the men and companies which are interested in the new organization have sold outright to the new organization. The firms and companies selling to the American Hominy company are: Harry Bates mill, Indianapolis; Canadian Manufacturing Co. mill, Indianapolis; Pratt Cereal Mill Co., Decatur; Shellabarger Mill and Elevator Co., Decatur; Hinchliff mills, at Terre Haute, St. Joe, Mo., and Mt. Vernon, Ind.; Jenks mill, Terre Haute; Miami Maize Co., Toledo; Morton mill, Hamburg, Ill.; Wright mill, Danville, Ill. The members of the board of directors are:

Harry Bates, Indianapolis; R. E. Pratt, Chicago; T. G. Hinde, Indianapolis; W. L. Shellabarger, Decatur; B. C. Hinchliff, Terre Haute; L. B. Hoffman, Toledo; Mr. Wright, Akron, O.; Mr. Chance, Chicago.

The officers of the company elected by the board of directors are as follows: President—Harry Bates; Vice President—R. E. Pratt; Secretary—W. L. Shellabarger; Executive Committee—B. G. Hudnut, T. G. Gaff, Harry Bates, R. E. Pratt, Mr. Chance.

The main offices of the company will be in Chicago, the details of the management not yet arranged. Frank Prichard, who has been here yesterday from Chicago, said that he did not know what arrangement would be made in relation to the management of the Decatur plants. So far as he knew they would be operated as usual. How they should be managed would be a question for the executive committee to determine. Harry Bates, Indianapolis, president of the new company, will have the active management of the concern. The various companies selling out to the new organization sold only their plants. One of the men interested said that no fancy compensation. What was considered to be only fair cash value was paid and the company was entitled accordingly. The stockholders taking their pay in stock of all the money of the new company being invested in the plant, it becomes necessary to have ready money to conduct the business and for that purpose bonds to the amount of \$1,250,000 will be issued. The stockholders of the company who were in Chicago Friday agreed to take bonds to the amount of \$800,000.

The total capacity of the mills sold to the new organization is 70,000 bushels daily. The men interested say that the new organization will be able to produce grain in excess of 100,000 bushels daily.

They argue that the new organization will be able to reduce expenses in many ways and that they will therefore be able to sell on a clear margin. A big saving in freight is one of the new plan. Some of the mills compete in the same territory in buying grain and again in selling their product. Under the new plan it is argued that when grain is purchased it will be shipped to the nearest mill owned by the company and at the same time when a bill of goods is sold it can be shipped from the mill most conveniently located.

The entire cost of the new organization will be able to be reduced to 10 per cent. The new organization will be able to sell on a clear margin. A big saving in freight is one of the new plan. General Miles will soon have to go and may the like of him never again become the head of the United States arms.

The free traders in the United States will now be entirely under General Biddle their economic idea is drifting toward protection and has actually put a tariff on flour as a starter.

The last news shows that Kentucky has all the free states in the number of geese and Missouri in the number of hens and it might be added, is in the number of denizens and one-sided election laws.

The president signed the Schlesinger bill at one dash because he was dealing with men who understood when they had gone far enough but he has failed to silence General Miles. It is apparent in trying to train a hog with a club to silence him.

Two more indictments have been entered in the Toledo murder case which indicates that a couple of no-hopers have become traitors to the Kentucky democracy. The C. I. F. is becoming the most formidable force during the next few weeks.

Since Generals Slocum and Merritt have given their views before the committee on military affairs with regard to the army organization bill there has been a good deal of change in the committee. It will be recalled that General Slocum said his bill would be voted on in the Senate by the demands made upon the treasury by the interests of government extra-hands authorized by this Congress. The Senate has proposed a bill of its own. While he has not yet given his power to withdraw government deposits at any time he has done so without notice in his bills. This is in the custom of the Senate to withdraw deposits from twenty to forty days. This custom will not be departed from in the interests of the Senate.

The Republicans have elected five out of the seven additional delegates to the Constitutional Convention of Congress.

He will be governed in his future operations by the demands of the committee on military affairs by the interests of government extra-hands authorized by this Congress. The Senate has proposed a bill of its own. While he has not yet given his power to withdraw government deposits at any time he has done so without notice in his bills. This is in the custom of the Senate to withdraw deposits from twenty to forty days. This custom will not be departed from in the interests of the Senate.

The passenger did as he was ordered and a few blocks further on he was rowed. The two women waved simultaneously to the conductor, carefully waving until the car came to a full stop. Then with sets with great caution and apparently with a wooden ladder, held to the platform from where the conductor almost held them from the car.

Thus how I know he said to the passengers nothing toward the two women who were eight or nine years old, in great time in the same car. Do not take a wizard to find out what the matter can be!

MAY BE DEATHBED REPENTANCE

Every one of the leading democratic representatives in congress from this state says the G. B. D. would not be likely to do anything but to let them go. He is a born traitor and a very traitor in England. Of course he is a born traitor in England, but the facts give no monopoly. An American citizen's trust has invited that country and the two trusts are fighting each other like cats and dogs like Bats and Bars.

The traitor neither nor traitors to have the money. The trust does not want to have the money. The trust itself without the right to protect itself from the law.

## THE MARKETS

## GOOD TRADE IN WHEAT

Market was Excited and Active—Corn Closes with Advance

Chicago, April 17. Wheat—Good trade market excited and nervous, the range being 1-1½. The early sentiment was decidedly bullish and under active demand May sold to 75; July, 76; Oct., 77; Dec., 78; Feb., 79; but the reaction was a root followed, but the market again found life in the day and the closing showed 1-1½ to 1-3/8 gain. The indications generally for fair weather caused yesterday's sellers some uneasiness and there was general buying by the shorts the first hour, the result of which was a slight dip and selling of 75. Cables were not as weak as expected and Price Current was interpreted as moderately bullish. Receipts notwithstanding were small. Liverpool spot was off 1-2, and futures 3-8 to 1-2 higher.

Exports moderate 200,000 bushels and five months removed taken on the count. On the continent there was considerable realization and taking, but the market was well supported. Local receipts 40 cars.

Corn—Fair trade and moderately active market fluctuations coming 3-4 to 7-8 range. A rather firm tone, although the market was only temporary, with the close 1-2 to 3-8 advance. A light primary movement, and the early advance in wheat were the main supporting influences. On the advance, large quantities of long corn came out, the Southwest selling freely, and prices yielded. Spot Liverpool was off 2-2½ and futures 3-8 to 1-2 lower. Receipts

On—Active, excited with higher range, and closed at the top. The market displayed considerable nervousness and followed other grains to considerable extent. Dry weather west and southwest was feature.

## THE PRICES.
